

額田東郷地区

The map displays the Gotoh Higashikyo region with topographic contours and a grid of land parcels. A network of drainage lines is overlaid, with red lines indicating the current fiscal year's (Heisei 4) project areas and blue lines indicating previous years' projects. Green outlines delineate the project planning areas. The map shows a complex network of these lines across the terrain, with some areas appearing to be more densely developed or more central to the drainage network.

	令和4年度工事箇所 L=1,740m
